

Main Tools of Data Scientist

Andrew Zilles

February 2024

1 Introduction

There are many tools used by data scientists. I'll create a bullet pointed list of them below.

- Measurement
- Statistical programming languages
 - Three Main languages
 - * R
 - * Python
 - * Julia
 - But many others too
 - * Stat
 - * SAS
 - * SPSS
 - * Matlab
 - * JavaScript
- Visualization tools
 - ggplot2 in R
 - matplotlib in Python
 - Plots.jl in Julia
 - Tableau
- Big Data management software
 - RDDs
 - SQL
- Data collection tools
 - Web Scraping
 - APIs
 - Parsing
